Product Information

DMPI 1.5V02MPR DMProbe Machined Probe Line

Product: WR1.5 V02 Machined Probe with internal bias

- * Recessed GPPO dc bias connector on top of the block
GPPO to SMA cable provided for first two blocks
- * Probe pitch of 25 microns
- * DMPI offers additional machined waveguide components to attach your DMPI probe to existing probe stations.

Advantages:

- * Only existing wafer probe at WR1.5
- * Low insertion loss
- * Low pricing
- * Low repair cost and short repair times (<http://www.dmpubes.com/Product>Returns-Repair-DMPI.html>)
- * Unlike our competitors, unless the robust metal block itself has been damaged (an unusual event), the probe can be repaired repeatedly for years, with typical performance "as new".
- * Unlike our competitors, no limit to the number of probe repairs, per month, per customer.
